THE WAR IS OVER.

Reports From Chili Confirm the Recent War News.

A VICTORY FOR BALMACEDA.

The Insurrection is Now Believed to Be at an End—The Leaders of the Rebellion Will Be Summarily Dealt With—A Conflicting Report Reaches Washington.

LONDON, Aug. 29.—Advices at the Chilean legation fully confirm the news of Balmaceda's victory. The members of the legation were at their offices much later than usual last night, waiting for further news, and their smiling faces were sufficient to assure the visitor that what they had received was satisfactory.

Attache Pereira, of the legation, said the insurrection was now at an end, but that there had been no doubt from the beginning as to what the end would be. He declined to express any opinion as to what punishment should be meted out to the rebels, saying that the laws of Chile provided for that. Neither was he willing to reveal the contents of any dispatch alluding to Bolivia. That was for the minister, he said, and the minister was too busy to be seen.

Senor Pereira, however, both by his tone and manner, showed that things would go hard with the captive leaders of the rebellion, and also with the republic that had recognized the insurgents.

An English merchant who has just returned from Valparaiso, said it was difficult for a European to imagine the hate with which the factions regard each other.

The merchant said that business was virtually at a standstill in Valparaiso, and that it would take a long time to regain the trade that had been lost.

He added that the common Chilean soldier was the best fighter in South America, a trait largely derived from the strain of Arucanian blood, the Arucanian Indians being a peculiarly brave and indomitable race. The result of the insurrection, he added, did not surprise him, as there was no widespread popular feeling against Balmaceda.

The Feeling in Washington.

WASHINGTON, Aug. 29.—In the headquarters of the Chilean congressional envoys there was a state of commotion last night over the news of the victory of the congressional forces at Valparaiso. Don Pedro Montt, the chief representative, is in Montreal, and Senor Veraz is in San Francisco, but Mr. Julio Foster, the remaining envoy, was besieged with callers to offer congratulations, and he was in a state of delighted excitement. Numerous telegrams of congratulation were received during the evening from prominent people in Chili who are in sympathy with the congressional forces.

When asked last night what the status of United States Minister Egan would be if the congressional party took control of the government, Mr. Foster said: "He cannot remain as the United States minister. We would request the United States government to recall him. We could not put up with a man who has been partial to Balmaceda and an enemy to the congressionalists, and one who has always persisted that Balmaceda would not be defeated."

"If Balmaceda is entirely dethroned," said Mr. Foster, "he and his followers will not be punished, as we believe the greatest punishment to these men, who for the first time have figured in the upper strata, will be their short-lived power and the public indignation heaped upon them."

Mr. Foster said Minister Egan has a son who holds office indirectly under Balmaceda.

"The son is about nineteen years old," said Mr. Foster, "and employed on a government railroad in the capacity as clerk, and is paid for his services by a contractor who is employed by the Balmaceda government, and I understand that this son has other employment under Balmaceda also. It is an unusual occurrence for a foreign minister to place his son in the employ of a country which he serves in diplomatic relations."

THE QUESTION SETTLED.

Sons of Veterans Decide the Celebrated Payne Case.

MINNEAPOLIS, Aug. 29.—The commander-in-chief of the Sons of Veterans settled the long standing question of the status of Past Commander-in-chief Walter S. Payne, who had been expelled for misappropriation of funds. The committee of the review reported that he was absolutely innocent of any intention to defraud the order, but had under mistaken judgment wrongfully invested the funds. It recommended that the decree of expulsion be rescinded and that Payne be censured. There was a bitter fight over the report but it was finally adopted with the addition that Payne be deprived of his rank as past commander-in-chief. Judge John P. Rea, of this city, appeared as his counsel. Payne is from Fostoria O.

St. Paul camp Sons of Veterans won in the competitive drill last night, Tacoma second. The judges were officers in the Third infantry U. S. A., from Fort Snelling. The markings were: St. Paul, 93.6; Tacoma, 90.26.

Wreck on the Ill Four.

COLUMBUS, O., Aug. 29.—There was a bad wreck on the Big Four railroad near Delaware, O., yesterday evening. A passenger train due there at 4:02 p. m. ran into a freight at the end of the yard, telescoping the baggage car and tender of the passenger. Jimmie Brownell, a lad beating his way, was instantly killed. Fireman Charles Kunkle, of the passenger, jumped from the cab to save himself, and received serious injuries. The mail clerk was also slightly injured. Traffic was delayed for several hours.

MAKE GOOD SOLDIERS.

Report of Captain Lee on the Progress Made by Indian Recruits in the Army.

WASHINGTON, Aug. 29.—The war department has received a report from Captain J. M. Lee, of the Ninth United States infantry, of an inspection he recently made of Troop L, Sixth cavalry. This troop consists of fifty-five Sioux Indians, and is now stationed at Fort Niobrara, Neb. The troop was recruited at Rosebud, S. D., largely from the Brule Sioux tribe, the least progressive of the bands located there. The officer who recruited the troop, and who is now in command of it, is Lieutenant Edward E. Dravo, of the Sixth cavalry. In his report Captain Lee says he has visited the quarters, mess-rooms and stables of the garrison and talked with the men freely. They are, he says, well contented and cheerful and there was not a single complaint from them. They are clean, neat and soldierly. Their quarters and the grounds contiguous to them were well policed.

The furniture and utensils of the camp were scrupulously clean and the food was well cooked and properly served. All the cooking was done by Indians and there was none better done in the garrison. The stable and grounds were models of neatness and completeness and were made so by the labor of the Indians. They attend to their duty with the regularity of the best soldiers. They are proud of being soldiers, the captain says, are becoming rapidly civilized in their demeanor and habits, and are having a salutary influence over the reservations. Twenty per cent. of the company have deposited money with the paymaster. They send considerable amounts each pay day to their needy relatives at the agency, and purchase many necessary and useful articles. Lieutenant Dravo, the captain says, has caused those at the post with families to be lawfully married. Mounted drill had just begun at the time of the inspection, and the intelligent progress of the Indians was surprising. Their memory and application of every foot drill seemed almost perfect. The dismounting drill was excellent, and the military wheels and other movements were executed with surprising promptness and regularity.

PATRIOTIC SONS OF AMERICA.

The Admission of Colored Men Settled Adversely for Another Year.

PHILADELPHIA, Aug. 29.—At the session of the Patriotic Sons of America Thursday the question of admitting colored men was again indirectly taken up. The question came up under the guise of a resolution offered by the Pennsylvania delegates that a two-thirds vote shall be necessary to amend the constitution. The western delegates, who have opposed almost to a man the admittance of colored members into the order, were taken by surprise at this sudden move of the eastern members, but they felt little alarm that it would be successful, knowing that the same number of votes would be requisite as was required to amend the constitution so as to admit colored members. The debate that followed the offering of the resolution was a long and hot one. When the vote was finally taken the resolution was defeated by a vote of 56 to 36, thus settling in the negative for another year the question of the admittance of colored members.

Officers Elected.

Following are the officers elected for the ensuing year:

National president—Clarence F. Huth, of Pennsylvania.

National vice president—Joseph Williams, of Colorado.

National master of forms—T. M. J. Reed, of Pennsylvania.

The report of the committee on ritual in favor of adopting one degree instead of three was agreed to. Several minor changes were also made in the ritual.

OPENING OKLAHOMA.

Secretary Noble Says That the Time Has Not Yet Been Set.

WASHINGTON, Aug. 29.—Secretary Noble has sent the following telegram to Governor Steele, of Oklahoma, in reply to a dispatch inquiring as to the time and conditions for opening to settlement the Indian lands in Oklahoma territory:

Your dispatch received. There is no day set for the opening of Indian lands. The president has not been consulted. He will have to determine. Have requested sufficient force to protect the Indian lands until opened. I am sure the people will understand that they cannot go upon these lands until all conditions with the Indians are complied with, and the proclamation issued. The law abiding people will be protected so far as my authority goes, and those disobeying the law and committing trespasses shall gain nothing thereby, but rather incur loss. Please keep me advised.

OTTAWA, Aug. 29.—Hon. Mackenzie Rowell, minister of customs, was taken suddenly ill yesterday while at breakfast in the Russell House. He fainted and was carried to his room and physicians summoned. He recovered in about an hour, but is still weak. His doctor attributes his illness to overwork.

Buried in a Cave-In.

BIRMINGHAM, Ala., Aug. 29.—Wade Thomas and Bob Reed, both colored, were buried in a cave-in the Alice furnace this morning and smothered to death.

INTO THE DEEP SEA.

Twenty-Six Persons Drowned at Melbourne.

TWO VESSELS COME TOGETHER.

An Unavoidable Collision Occurs Inside Port Phillip Heads—The Cause of the Accident Unexplained, but is Believed to Be the Result of Carelessness.

LONDON, Aug. 29.—A dispatch from Melbourne states that a collision occurred at 1 o'clock yesterday morning inside Port Phillip Heads between the steamers Gambier and Easby. The Gambier was bound from Sydney, N. S. W., for Melbourne and was just clearing the heads when she met the Easby, bound out. It was impossible for the vessels to clear each other and the Easby struck the Gambier amidship, crushing in her side to such an extent that when she backed away the water poured into the hold of the Gambier in torrents.

A scene of terrible confusion and excitement followed the shock of the collision. Most of the passengers were in their berths when the accident happened. Suddenly awakened by the shock, and not knowing the nature of the accident that had befallen them, they rushed pell-mell on deck without waiting to dress. They rushed frantically for the boats, but there was no time to cast loose their fastenings and lower them away, for the steamer was settling so fast that to attempt this means of escape meant to go down with the ship. The officers did their utmost to calm the terrified passengers, but their efforts were to a great extent unavailing.

The Easby remained alongside the Gambier and rescued many of the latter's passengers and crew. Notwithstanding her efforts, the Gambier filled so rapidly that it was beyond human power to save everybody. Seven minutes after the collision the Gambier gave a long forward lurch, then her bows rose high out of the water, then she settled back and sinking stern first she disappeared from view, carrying with her five saloon passengers, fifteen steerage passengers and six of the crew. The boats from the Easby remained for a long time in the vicinity searching for possible survivors, but they found none.

The Easby sustained considerable damage. Her cut-water was stove, her bows were badly damaged and her head gear was carried away.

No explanation is given for the collision. The sea was calm and the night was clear, and it is claimed by many persons that proper lookouts were not kept on either of the steamers.

UNCLE JERRY REJOICES

At the Prospect of Our Farm Products Abroad.

CHICAGO, Aug. 29.—Secretary Rusk is in the city. In an interview he said: "We will have our pork on the European markets in a very short time. Everything is favorable for our packers to place their products before the Europeans, and the prices the pork will bring will be highly satisfactory to the exporters. This conclusion I have not arrived at hastily nor without due consideration. I have devoted much of my time to it."

"The small crops of cereals in the European countries and the financial troubles in Great Britain will necessitate the admittance of our pork, as it will be cheaper than any that is there now, and the result will be a much larger sale of our products than ever before, not only of pork, but of other articles of food as well."

The secretary expressed much satisfaction with the work of his meat inspection bureau. He said he was receiving calls for its extension in many directions. He thinks he will be able to extend it so as to cover practically all of the packing in the country within two years.

ALL SHOT.

A Whole Family Found Dead in Its Home.

NEW YORK, Aug. 29.—John Baxter, his wife and two children were found dead in their rooms at 212 East One Hundred and Sixtieth street yesterday. All had been shot. It is supposed to be a case of murder and suicide. Baxter was a painter, said to be the son of a well-known character of the same name of the Ninth ward.

Close by the body of Baxter lay a revolver containing three cartridges and four empty shells. Shots were heard at 10 o'clock the previous night by the other tenants of the house, but no investigation was made until morning. The policeman found on a table in the room where the bodies lay a letter addressed to Baxter's mother. It was in the handwriting of the dead man, and showed he had contemplated the deed. No reason was given, but it is supposed the man was insane. The children had been shot while asleep, and there was no evidence of a struggle.

The couple had been married seven years, and did not live happily.

Employees Must Be Paid.

INDIANAPOLIS, Aug. 29.—Receiver Butler, of the American wheel trust, was yesterday ordered by Judge Woods, of the federal court to borrow \$25,000 for the purpose of paying the overdue wages of employees in this and other cities in which the trust operated. The receiver will no doubt remove his headquarters from this city to Chicago as the interests of the business seem now to require his presence in this city more than in any other.

Seven Business Houses Burned.

DANVILLE, Ind., Aug. 29.—Seven business houses and one residence were destroyed here by fire yesterday. The total loss will reach \$40,000, on which there is \$30,000 insurance.

COAL SOOT.

It Is Said to Be Very Destructive to Shade Trees.

CLEVELAND, Aug. 29.—Professor J. C. Arthur, of Perdue university, Lafayette, Ind., who was sent here by the department of agriculture at the request of Mayor Rose to investigate the cause of the death of shade trees on the public square and in the lower part of the city, after two days' inspection gives it as his opinion that coal soot is the principal cause of the blight that is destroying so many trees in this city.

The soot closes the pores of the leaves and shuts off their supply of organic matter, as well as interferes with their exhalation of water. Professor Arthur further says that the water-tight pavements are somewhat injurious, and that the reduction of the water depth from eight to sixteen feet by the newer sewers has probably contributed to the disease of the trees. He recommends the discarding of maples and elms and the planting of poplars, red and white oaks and other smooth-leaved trees, which are not so much affected by the blight.

WITH A SPADE.

John Moore Splits Harrison Beheler's Head.

FRANKLIN, Ky., Aug. 29.—Another tragedy occurred in the eastern part of this county Thursday evening, in which a father-in-law was killed by his son-in-law. Harrison Beheler and his son-in-law John Moore, both substantial farmers, were working on the public road, with a number of other men, when an old feud between Moore and Beheler was renewed.

A terrible fight occurred between them, in which Beheler's skull was crushed and his brains were knocked out. The weapon used by Moore was a large spade. Beheler's head was split open and one ear was cut off. Moore gave himself up.

Colored People Seeking Recognition.

INDIANAPOLIS, Aug. 29.—A conference of colored Republicans was held here yesterday at the residence of Rev. J. H. Clay, at which J. W. Townsend, of Richmond, recorder in one of the land departments at Washington, was present and spoke for the president in the matter of the treatment of his race. The meeting passed a resolution calling for the appointment of a colored man on the world's fair commission and asking for the appointment of an Indiana colored man either to the Haytian or Liberian mission, both of which are now vacant. A letter from the president was read, in which he assured a favorable hearing to his colored constituency in this state.

Anxious for a Match.

NEW YORK, Aug. 29.—Jen Corbett, the heavyweight pugilist of San Francisco, telegraphed from Baltimore yesterday in answer to Charley Mitchell's cablegram of yesterday, in reference to a match being made with him. Corbett says he has \$8,000 posted with the New York Herald, and he is prepared to meet Mitchell at once and arrange a match with him for a fight to a finish with gloves, for \$10,000 a side. He adds that it is the desire of his heart to meet Mitchell, and hopes the match will be speedily arranged.

Will Try It for a While.

OTTAWA, Aug. 29.—On the final passage of the live stock bill through the senate, Mr. Abbott, premier, referred to proposed permission to capitalists to import United States live cattle in bond for slaughter in Canada and assured the senate that the utmost precaution would be adopted, and if it was found that the admission of United States cattle into Canada endangered the Canadian cattle trade with Great Britain, the Canadian government would, if necessary, cancel the privilege.

Dry Goods Damaged.

SEYMOUR, Ind., Aug. 29.—Shortly after 12 o'clock yesterday fire broke out in the dry goods house of C. J. Atkinson & Company, the largest of its kind in the city. The building was saved in a damaged condition, but the stock, valued at \$11,000, was ruined by fire and water. The firm carries \$8,000 insurance. The store is located in the business center of the city, and the fire was the work of an incendiary.

Postoffice Robbery.

GALLIPOLIS, O., Aug. 29.—The post-office at this place was entered by burglars last night. They pried open a back window, unlocked the safe—a large-sized improved one, with combination lock—and took between \$1,200 and \$1,500 in stamps, money and registered mail. All the money order advices were also taken. The burglars tried to effect an entrance into other places, but did not succeed.

Mail Train Delayed.

NEW YORK, Aug. 29.—A washout at Castleton, N. Y., yesterday delayed the mail from the west to this city. The trains due here from 6 to 10:35 a. m., were compelled to come in by the West Shore road, causing a delay of over three hours.

Suing for Damages.

JEFFERSONVILLE, Ind., Aug. 29.—Grand Reporter Knights of Honor J. W. Jacobs filed suit yesterday afternoon against F. R. M. Gilbert, liveryman, for \$5,000 damages for injuries sustained in a runaway with Gilbert's horses two months ago.

Ammonia Poisoned.

JEFFERSONVILLE, Ind., Aug. 29.—Thomas Hoover lies in great agony at his home here, ammonia poisoned. He is spotted all over with discoloration. Working in a factory at Louisville is the cause. There is little hope of recovery.

Call for a Convention.

NEW ORLEANS, Aug. 29.—The Hon. D. D. Wood, chairman of the executive committee on the improvement of western waterways, has issued a call for a convention to be held in Evansville, Ind., Oct. 14 and 15.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & MCCARTHY,
Proprietors.

SATURDAY, AUGUST 29, 1891.

KENTUCKY maintains her supremacy in the turf world. In the past week the Kentucky racer, Marion C., defeated the great Kingston, and following this comes the wonderful performance of Colonel Hart Boswell's great trotter, Nancy Hanks, at Independence, Iowa, Thursday.

"SECRETARY FOSTER prides himself on having extended \$20,000,000 of the four-and-a-half, but no longer calls it extension," says the New York World. "The bonds have been continued. Whatever the word, the fact is that the Republican party has forced the Treasury from paying in advance to beg off from payment at maturity."

The importation of "shoddy" has grown from 500,000 pounds in 1867 to 9,000,000 pounds in 1889. A significant fact in this connection, and one not very creditable to American manufacturers, is that an analysis of American "woolen goods" now shows they contain only 28 percent of wool. It's very easy to tell what becomes of all the "shoddy" imported.

MAJOR MCKINLEY is trying to make the farmers of Ohio believe that "mortgages are not always an evidence of poverty; that they are much oftener the best evidence of prosperity." This will be as difficult a task as to make the wool growers believe they have been benefited by the McKinley bill, even though the price of their clip is much lower than it was before the bill was passed.

AND now it is intimated that the Alliance raid on John Sherman in Ohio is being manipulated in the interest of Foraker's Senatorial aspirations. Foraker's brother-in-law, Cobb, is an officer in the State Alliance and one of the prominent leaders of the movement in Ohio, and it is through him that the scheme is being worked. While the fiery Foraker and the cool-headed Sherman are fighting each other, the Democrats may walk off with the prize.

ONE of the regular Democratic nominees for Representative in Daviess County was defeated a few weeks ago by Thomas Pettit, who headed the Alliance ticket. Thomas has repudiated the Alliance and now wants to be Speaker of the House of the next Legislature. He has sent out cards, saying he has always been a "loyal and consistent" Democrat. We are inclined to believe that Thomas will have a difficult time making some Democrats believe in his consistency and his loyalty to the party.

GOVERNOR BUCKNER, in refusing to pardon Ben. F. Cloud, a prisoner sent from Harlan County in 1885 for life for the murder of John Napier, endorsed on the papers in the case his reasons as follows: "This case has been considered and adversely acted upon annually since 1888. The evidence justifies the verdict and sentence. The case is again brought up for consideration, not by the production of any new facts, but solely on the ground that the Executive, being now about to close his term of office, may be disposed to look more leniently on offenses against society."

"The Executive believes that the same sense of duty to the people which should guide his conduct in the beginning of his term of office should continue to the last moment of his official life. The office is a trust to be exercised only in the interests of the people, and not for any personal gratification. He declines, therefore, to interfere with a judgment which he believes to be just."

These words are excellent and to the point. They are such as have characterized the Governor's official utterances throughout his term of office.

OMO's Republican nominee for Governor is degenerating into an arrant demagogue. In a speech a few days ago he said:

Shall the soldier have his great debt paid off in the same coin as the bondholder? Is it right to force upon him a dollar worth only 80 cents, when the other creditors of the Government were paid a dollar worth 100 cents? Is it just to the pensioner who receives \$12 a month to be paid in a silver dollar worth 80 cents, and thus receive \$9.60 as his monthly pension rather than \$12 which the Government has contracted to pay him? For one I shall never consent that the soldiers of the country shall be paid in any poorer coin than the most favored creditors of the Government.

Commenting on the above, T. E. W., one of the leading writers on the New York World staff, says: "We have 325,000,000 of these 80-cent dollars stored in the Treasury and 164,000,000 in circulation. Who coined them? The Republican party. At whose request? At Mr. McKinley's. He and his colleagues forced their coinage, forced them upon the people, cheated the people out of 20 cents on each one by making the coinage cost that amount, and now he has the impudence to say that 80-cent coins should not be used to pay pensions. If this is not the talk of a demagogue, what is it?"

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

THEY ARE MANY.

Children Enjoy

The pleasant flavor, gentle action and soothing effects of Syrup of Figs, when in need of a laxative and if the father or mother be costive or bilious the most gratifying results follow its use, so that it is the best family remedy known and every family should have a bottle.

Fractured His Skull.

A colored man named Sep Powers, sometimes known as Sep Clark, went down from this city to the Ripley fair Thursday. That night while at a dance he fell out of a window and fractured his skull. He was still alive at last accounts, but was in a critical condition. The accident was the result of his carelessness. He was drunk, and sitting down in the window he fell asleep and tumbled out.

The Reason Why.

Ohio Man—"Mr. Barkley, do you know why I come from miles back in Ohio to buy boots and shoes for myself and family? It is because I can save so much in prices and get the qualities and fits. These shoes I am wearing I paid you \$2 for; other dealers asked me \$2.50 and \$2.75 for the same kind; they have worn me since last spring. All our shoes are alike satisfactory. Our people are all finding this out and, as you know, are coming to you to get their boots and shoes."

Base Ball Excursion.

Another match game for a purse of \$500 has been arranged between the Paris Blues and Maysville Browns to be played at the base ball park in Louisville next Sunday. Special train will leave here at 6:30 a. m. Sunday; returning leaves Louisville at 8:30 same evening, arriving here at 1:35 a. m. Monday. The fare for the round trip has been placed at the remarkably low rate of \$2. Those that accept this opportunity of making a trip to Louisville will not only have ample time to see the game of ball, but as they will spend nine hours in the city, there is no reason why they shouldn't take in all the sights that make Fall city, so noted.

That Middlesborough Lynching.

Mr. J. B. Noyes arrived home last evening from Middlesborough, where he attended the State Sunday school convention this week.

He was there when several of the citizens of the place were indicted for lynching the stonemason Rossinus, reference to which was made in yesterday's issue. From what he learned he says Mr. J. Lewis Patton, who is one of the parties indicted, will have no trouble to clear himself of the charge; that an alibi in his case will be proven if the case ever comes to a trial. This will be gratifying news to Mr. Patton's many friends. The prosecution is looked upon as a piece of spite work on the part of Pineville people. Concerning the charges against Messrs. Frank Pollitt and young Bullock, Mr. Noyes didn't learn much.

ALL you lovers of the national game, go to Louisville next Sunday to see the game for that purse of \$500, between the Maysville Browns and Paris Blues. Remember the citizens of Paris have chartered four of the coaches on the special train that will run from here to send a delegation down to see that their boys get fair play. Let Maysville see that our club will also have friends and won't be imposed on. It's the third game between the above mentioned clubs. The first at Frankfort for a purse of \$200, was declared a draw; the second game at Cynthiana for a purse of \$200 was hotly contested and won after the tenth inning by the Paris team, the score being eleven to ten, and as this is the third meeting of these clubs it is looked upon as the game of the season. a27d3t

CENTRAL ELEVATOR COMPANY.

A Former Citizen of Maysville Figures in a Failure at Cincinnati.

The Post says: "At 10 o'clock Friday morning a deed of assignment was filed by the Central Elevator Company, a corporation organized under the laws of Kentucky and doing business in Cincinnati.

"The deed is signed by John H. Hall, President, and Grant G. Sutherland, Charles B. Cougar is made assignee.

"The assets are \$15,000. The liabilities are not stated, but it is believed that they will not fall much short of \$15,000. There are no preferences.

"The company's office and elevator is on Sixth street, just west of the C. H. and D. depot.

"The causes of the failure are various, but the most pronounced one is that of insufficient capital to profitably carry on the business."

Mr. Hall's many friends will regret exceedingly to learn of his financial embarrassment. He was formerly a member the James H. Hall Plow Company, but disposed of his interest to his brothers a year or so ago and engaged in business at Cincinnati. He resides in Covington.

MINER'S MAXIMS!

WHAT YOU DON'T KNOW Won't Bother

You, But That's No Excuse For a Want of Knowledge.

The longer you remember some things the worse you are off; the sooner you forget them the better you are off. Certainly you don't need to be told why you go to a Shoe store. You know what your purpose is just as well as you know two and two are four.

To say that your object is to buy a pair of Shoes does not, however, describe the case. Your idea is to procure for what you spend the best that your money will buy. Less than this will not content you; more than this you cannot, in reason, ask.

Our methods are as simple as your desires. We do not lift your expectations to the clouds, but we realize them. Of this you can rest assured: We will never sacrifice your interests to ours.

This is one of the things it will pay you to remember: Nowhere can you get a fuller and fairer equivalent for your money and nowhere can you have a more absolute assurance that your confidence will not be betrayed.
